Tony Contratto is a first-time author from Lake Havasu City, Arizona. Tony is also a small business owner and nonprofit director. His philosophy is that the most gripping and immersive fantasy tales happen in our imagination. In the spirit of that ideology, Tony spent several years formulating the story of his first novel within his head, before ever putting the proverbial pen to paper.

AGENTS OF FATE

TONY CONTRATTO

Hayden is your typical college student — except for the fact that his existence was prophesied over 50,000 years ago.

When an ancient evil awakens, Hayden and a group of acquaintances are lunged into the struggle and left to fight for all of humanity. Is survival worth it when all the costs have been considered?

Gripping, imaginative, and filled with powerful characters to both love and hate. Agents of Fate is an enthralling journey that will keep you hooked until its dramatic conclusion and leave you yearning to return to Hayden's universe.
